Notes from CLA President

Dan McCarthy

June 2023

Dear Members,

The First lady and I celebrated our 30th Wedding Anniversary at the renovated Hocking Hills Lodge. It is an amazing place to stay. It has (2) pools and (2) hot tubs, both inside and outside. I highly recommend it. It is hard to believe the First Lady has decided to spend thirty years of her life with me. I must be an amazing, good catch. □ We hiked 6.5 miles around Hocking Hills on the first day. Not bad for the First Lady who 640 days earlier had open heart surgery. She is my own little miracle. We visited the Jack Pine Studio and watched glass blowing. We bought a glass mushroom sculpture for our yard.

Once again it is cold and wet while I work on this president note. I think we were in a drought before I decided to write this. Be sure to let your clients know, to water their plants. I have seen a lot of trees shedding interior leaves, not from disease, but from being too dry. I haven't even started to plant my garden year for this year. Are there any good varieties of vegetables that must have for the garden this year? Please send me an email with your recommendations.

We are at 900 (GDD) growing degree days. Be on the lookout for Bagworms, Fall and Mimosa webworms, and Lecanium scale.

Looking into the future, the 2024 Home & Garden Show is February 17-25, 2024. As of me writing this message, it is now **250 days until the 2024 Spring Home and Garden Show**. Are you Ready?

We are always looking for new ideas for member meetings. If your company would like to host a member meeting in 2023, please let me know or someone else on the CLA board. We would love to tour your location.

Please feel free to contact me at dmccarthy@ahlumarbor.com I look forward to hearing from everyone.

Let's be safe out there,

Dan McCarthy
President of C.L.A.

What to do with all those empty plant containers... a new recycling opportunity coming for CLA Members

This is a follow up on the February and April Member Meetings presentation by Amanda Murphy. This is a great opportunity to clean up your endless stash of used plant containers and help the environment by keeping these containers out of the landfill.

Amanda Murphy – Sustainability Manager with MJ Designs, presented an opportunity for the other members of the CLA to join with MJ Designs in a recycling program that will help all members. Working with East Jordan Plastics in Michigan, MJ Design will serve as a collection location for the CLA.

The Plastics that can be recycled are the # 6 Polystyrene, # 5 Polypropylene and the # 2 High Density Polyethylene. Amanda is very willing to come to your location to show you what to look for and how to separate and palletize these materials and give you more helpful information. She is available now through the first week of May and Again in July – August. The Goal is to have an FULL semi of recyclable plastic containers ready for pick up in August or September.

IMPORTANT CONSTRUCTION INFORMATION: NORTHEAST COLUMBUS / NEW ALBANY AREA

WCMH Columbus

ODOT to begin widening of State Route 161 as it prepares for Intel, other growth.

Story by Sarah Donaldson

COLUMBUS, Ohio ([WCMH](#)) — Crews are scheduled to begin construction on State Route 161 in July, widening the east-west highway as Ohio prepares for [Intel's eventual semiconductor manufacturing plant](#) and other growth east of Columbus.

The project is estimated to cost \$112 million total, according to the Ohio Department of Transportation, with construction in eastern Franklin County and western Licking County — running from where SR161 intersects with Interstate 270 to where it intersects with U.S. 62.

[How local communities are preparing for Intel](#)

SR161 will get a new lane in each direction, as well as wider bridges, according to ODOT. Crews for the agency will also widen the I-270 entrance on SR161. The new lanes should be ready by November 2024, ODOT said, with the project scheduled to be fully finished in August 2025.

During the duration of the project, ODOT said in a project fact sheet that the following entrance and exit ramps could see short-term detours:

- SR161 and I-270 access at Sunbury Road
- SR161 and I-270 access at Little Turtle Way
- SR161 at Hamilton Road
- SR161 at New Albany Road
- SR161 at Johnstown Road/U.S. 62

Even though the region was planning for sustained population growth before Intel's announcement, Mid-Ohio Regional Planning Commission Executive Director William Murdock said in February that Intel kicked some projects already in the planning stages into gear.

"What Intel does, does not changed the trajectory. It just makes it a little more urgent," Murdock said. "In every direction, we have a major new commitment to industrial jobs, and that means the whole region is thinking about these things."

10 Tips for Firework Safety

1. **Always use fireworks outside and have a bucket of water/hose nearby in case of accidents.**
2. **Designate a safety perimeter.** If you have ground-based fireworks like a fountain, spectating from at least 35 feet away is best. For aerial fireworks, you'll want everyone to move back to a distance of around 150 feet.
3. **Ditch faulty fireworks.** Sometimes fireworks don't go off, but duds always pose a risk. The important thing to know is that you should never try to relight or approach a failed firework. Let duds sit for 5 -10 minutes before you put them in a bucket of water. This can prevent injury from a delayed explosion and disarm the firework permanently so you can safely dispose of it.
4. **Supervise children when they are handling sparklers.** Sparklers burn at about 2,000 degrees Fahrenheit—hot enough to melt some metals. Sparklers can quickly ignite clothing, and children have received severe burns from dropping sparklers on their feet or touching body parts.
5. **Don't forget about your pets!** Fireworks can be extremely stressful for pets, but there are ways to help reduce their fear and anxiety. Keep your pets indoors. Close the curtains or blinds and turn on the TV or radio to provide some distraction. Treat toys filled with their favorite food (frozen pumpkin puree, peanut butter, and apple sauce are good options) may also help keep their minds busy and distract them from the fireworks.
6. **Soak both spent and unused fireworks in water for a few hours before discarding.**
7. **Never place a part of your body directly over a firework or hold a firework in your hand when lighting.** To safely light fireworks, make sure they are secured on the ground away from people and animals and use a stem lighter such as a grill lighter.
8. **Only light one firework at a time.** Lighting multiple fireworks at the same time increases the risk of accidents occurring from the fuse burning faster than designed.
9. **Avoid alcohol consumption when handling or using fireworks.** This should be pretty self-explanatory.
10. **Consider safe alternatives to fireworks such as party poppers, bubbles, silly string, or glow sticks.**

In addition to these tips, follow all manufacturer's guidelines for consumer safety and be sure to consult your state and local laws as private firework usage may be restricted in your area.

Have a safe and wonderful 4th of July!

Ohio's new fireworks law:

What are the rules?

Beginning July 1, 2022, a new law in Ohio allows people to legally set-off fireworks on certain holidays.

Here is a breakdown of what you can and can't do under the new law:

When can Ohioans discharge fireworks?

- July 3, 4, and 5, and the weekends immediately before and after (4 p.m.-11 p.m.)
- Labor Day weekend (4 p.m.-11 p.m.)
- Diwali (4 p.m.-11 p.m.)
- New Year's Eve (4 p.m.-11:59 p.m.)
- New Year's Day (12 a.m.-1 a.m.; 4 p.m.-11 p.m.)
- Chinese New Year (4 p.m.-11 p.m.)
- Cinco de Mayo (4 p.m.-11 p.m.)
- Memorial Day weekend (4 p.m.-11 p.m.)
- Juneteenth (4 p.m.-11 p.m.)

Where can fireworks be discharged?

Consumers can set off fireworks on their own property or on another person's property if the owner of that property has given permission.

Can local officials stop Ohioans from discharging fireworks?

As part of the new law, communities may set local limitations and opt-out of allowing people to discharge their own fireworks.

Here is how the law requires people to handle fireworks:

- No person under the age of 18 is permitted to handle or discharge fireworks.
- Anyone under the age of 18 cannot be within 150 feet of the discharge point.
- No one can use fireworks while in possession or control of, or under the influence of, any intoxicating liquor, beer, or controlled substance. A person who violates this is guilty of a first-degree misdemeanor.
- Aerial devices cannot be discharged within 150 feet of spectators (this includes aerial shells, roman candles, cakes, and bottle rockets).
- Non-aerial devices cannot be discharged within 50 feet of spectators (this includes fountains, firecrackers, and ground effect devices).
- No one can store more than 125 pounds of fireworks unless they have additional safety measures and safeguards in place.
- Fireworks cannot be discharged indoors.
- Fireworks cannot be aimed at or discharged toward any person or object (such as buildings).
- Fireworks cannot be discharged on public property or private school property. Fireworks cannot be discharged if drought conditions exist or in an area where a red flag warning is in place or other weather hazard exists.

Where can fireworks be purchased?

- Only fireworks purchased in Ohio may be discharged in Ohio.
- Consumers may purchase fireworks from any of the licensed sales locations throughout the state.
- Under the previous law, people could purchase consumer-grade fireworks in Ohio but had to transport them out of state within 48 hours.
